

Sound never ends

 Loud Professional™

Listen carefully,
feel better!

ABOUT US

Founded in 1992 and based in Italy, Loud Professional is a premium designer and manufacturer of High-Quality Sound Reinforcement Systems, proudly boasting decades of “On the Road” experience.

Every system is meticulously designed to deliver outstanding performance, long-term durability, and absolute reliability, thanks to advanced enclosure design, precision-crafted & state-of-the-art transducers technologies.

Over the past few years, Loud has established itself as a bold Italian powerhouse in the pro audio industry, leading festivals, clubs and indoor and outdoor installations worldwide.

ROSTER

Loud systems deliver consistent, High-Performance solutions for every kind of applications of any scale, from intimate theatres and concert venues to the world’s largest stadiums and Open-Air festival environments.

The Loud roster spans from the compact and versatile Nucleo, Micro, Gamma & Quadra series to large-scale systems, such as the VH-emotion, VH Layer & Point series, culminated in the latest Formula with its newest addition: F1512, the team’s purosangue.

DNA

Every system carries the same distinctive DNA: outstanding sonic performance, long-lasting reliability, elegant and discreet appearance, intuitive handling, and ease of use.

All deliver uncompromising performance, crafted with meticulous attention to detail and premium materials, within a lean and versatile structure.

A structure designed to listen, not just to audiences, but to users, owners, and businesses—transforming real needs into concrete solutions and tangible results.

VALUES

The Loud product range is designed to deliver superior sound quality and robust performance, always matching the most demanding professional users expectations. Design, Manufacturing, and Quality Control are all focused on total customers satisfaction, supporting distributors build trust and repeat business. The company's mission is defined by four core values: Advanced Technology, High-Quality, Prompt Service, and Competitiveness, providing a strong and differentiated brand proposition.

R&D DEPARTMENT

Our team designs tailor-made equipment to meet clients' real needs, including rigging accessories, signal processing, and custom mechanics.

We are not just suppliers of superior audio products, but a team of skilled engineers delivering flexible, customized solutions.

Design, manufacturing, and quality control are all focused on total customer satisfaction, helping distributors build trust and repeat business.

DRIVEN BY

Driven by passion: our experienced team works daily to improve the industry through creativity and vision.

Our talents are just beginning their journey, and we seek partners who share our ambition to turn bold visions into remarkable realities.

We deliver clarity and impact connecting audiences with artists.

Defined by excellence: we design each system to deliver excellent performance and durability. Uncompromising standards: inspecting each component to strict quality checks at every production step. Elegant.

THE MISSION

The company's mission rests on four core values: Advanced Technology, High Quality Standards, Prompt Services, and Competitiveness, offering a strong differentiated brand proposition.

We provide distributors with tailor-made solutions, including custom accessories and hardware adaptations, ensuring flexibility across markets and applications. Nearly all manufacturing process is 100% Made in Italy, guaranteeing consistent quality, reliable supply, and full control over production standards. This ensures distributors can confidently represent our products.

THE SOUND PHILOSOPHY

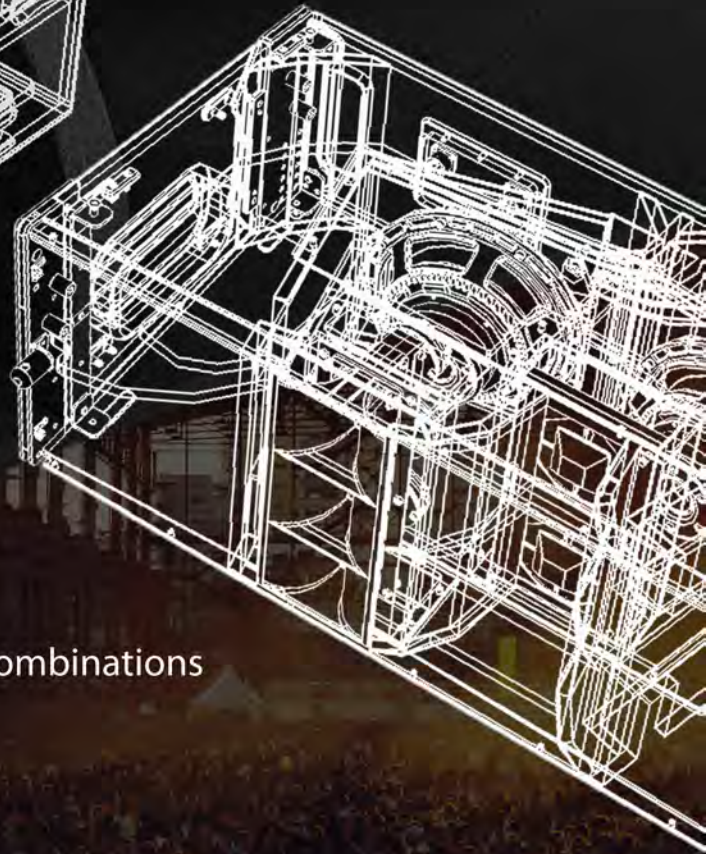

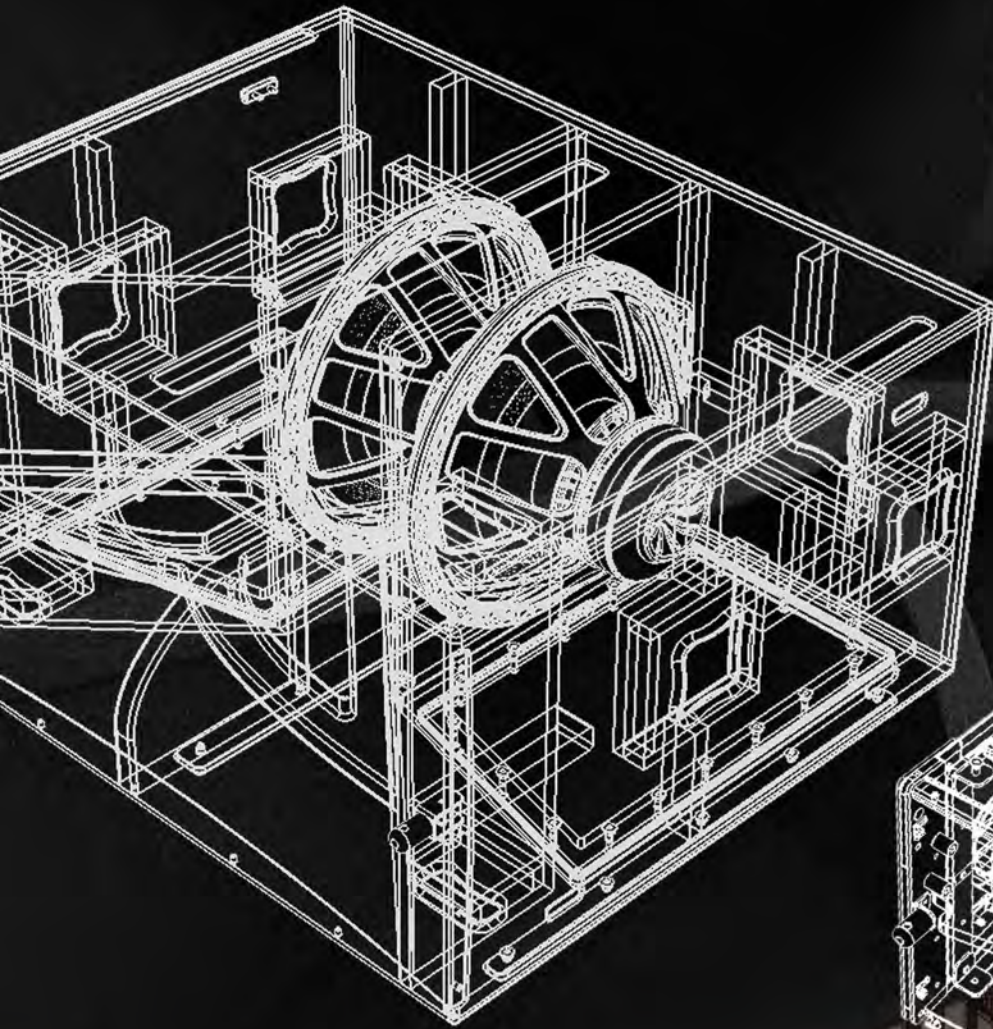

Brilliance and clarity, smoothness and impact, great extension and uniformity are all key elements, jealously guarded within our Sound Philosophy that has always distinguished our systems making them unique and delivering an out-of-the-ordinary listening comfort.

"Connecting people anywhere, everywhere!"
